Energy Rates & Rebates

Residential Rates & Special Programs

Water Heating*

Off-Peak: 4.7¢ per kWh

Space Heating*

Off-Peak: 4.9¢ per kWh

(see www.heatforlessnow.com for more information)

Interruptible Dual Fuel (IDF):

Summer Months (June, July & August): 6.261¢ per kWh

Other Months: 5.309¢ per kWh

**Note: Wood does not qualify as a form of backup heating for any of CLP's EnergyWise special rate programs. IDF programs are subject to 400 hours of control per heating season (October 15 - April 15.) Your application for EnergyWise special rate programs must be filled out and on file at CLP before any special rate takes effect.*

Additionally, special program rates can change in conjunction with the fluctuating energy market.

ChargeWise - Electric Vehicle Charging

Off-Peak: 4.9¢ per kWh

Charge your electric vehicle for 8 evening hours. Must be metered separately.

Heat Pumps

Both Air-source and Ground-source heat pumps use either the dual fuel or general service rate, depending on if you install a back-up heating system. **Important note for all special program rates:** General service rates apply until back up fuel system is installed and operational. Contact your heating contractor for any equipment information.

General Service Rates

Fixed Charge: \$30 per month

Summer Rate (June, July & August): 11.917¢ per kWh

Other Months: 10.517¢ per kWh

Power Cost Adjustment (PCA)

A PCA may be assessed on all general service kWhs. If a PCA is assessed, the amount will vary, and will be used to offset the rising costs of providing electric service.

Wellspring Wind and Solar Power

\$0.20-\$2.00 per 100-kWh block.

Grid Access Charge

\$0.00 for the first 3.5 kW AC of distributed generation connected to CLP's distribution system. \$2.03 per kW AC thereafter, with a maximum of \$10 per month.

Residential Rebates & Incentives

Certified HVAC Installed Central Air Conditioning: \$50 for SEER 14.5, 15 and 16+. **For a list of certified HVAC installers, see:** http://216.15.245.52/gre/public_Search.cfm

Certified HVAC Installed Air Source Heat Pump (ASHP):

\$480 for SEER 14.5, \$580 for SEER 15 and \$630 for SEER 16+. **For a list of certified HVAC installers, see:** http://216.15.245.52/gre/public_Search.cfm

Qualified Central Air Conditioner/ASHP Tune-Up: \$25.

Ground Source Heat Pump (GSHP): \$400 per ton.

Mini Split Ductless ASHP: \$300 with fossil fuel heating system, \$500 with electric heating system.

Electric Thermal Storage (ETS) Water Heating: \$400 for a controlled, high efficiency replacement of a non-controlled electric water heater, a controlled, high efficiency new construction electric water heater, or a conversion from 4-hour peak shave to ETS (must meet all requirements of the off-peak program.)

Electric Thermal Storage (ETS) Space Heating: \$50 per kW.

Heat Pump Water Heater (HPWH): \$500 for a conversion from general service electric and for new construction.

Electronically Commutated Motor: \$50.

REPLACEMENT EnergyStar Rated Refrigerator or Freezer: \$75 for replacement or harvest with proof of recycling.) CLP does not offer these rebates for new construction.

Dehumidifiers: \$25 for EnergyStar dehumidifier.

EnergyStar Room Air Conditioning Unit: \$10.

EnergyStar Clothes Dryers: \$25.

EnergyStar Clothes Washers: \$25.

EnergyStar Dish Washer: \$15.

WiFi Thermostats: \$25.

Replacement Dusk to Dawn LED Yard Light: \$30 per fixture.

LED Home Light: \$2 per bulb, not to exceed 50% of the purchase price. Limit 10 bulbs per year.

Important Notice: All rates are subject to change with little notice. Rebates are available while funds last. Please read your monthly PowerLines newsletter or visit www.clpower.com for details on special promotions.
