

ENERGY WISE

for your Home

If every American home replaced their five most frequently used light fixtures or the bulbs in them with ones that have earned the ENERGY STAR®, we would save \$8 billion each year in energy costs and prevent greenhouse gases equivalent to the emissions from 10 million cars.

SAVE TIME:

LED bulbs are available on our online store at energywisemnstore.com. Get your rebate at time of purchase, no paperwork to send in and no waiting for your rebate.

YOUR GUIDE TO ENERGY EFFICIENT LIGHTING

Shopping for light bulbs used to be easy, however, these days there are a variety of energy efficient lighting products on the market. While they will help you reduce your energy consumption, picking the right bulb can be a bit overwhelming. To find the right lighting products to fit your needs visit an easy to use interactive guide at energystar.gov/products/choose_a_light.

LEDs

- With the ENERGY STAR® rating use approximately 70% less energy than standard incandescent bulbs and last a minimum of 25,000 hours, or 22 years based on average household use.
- Produce very little heat, cutting energy costs associated with home cooling and making them less likely to be a fire hazard, plus they are shatterproof, shock resistant and safe to touch.
- Many indoor models available with dimming.
- Some outdoor models available with automatic daylight shut-off or motion sensor.

LED Yard Light

- Delivers more lumens per watt than more traditional yard lights such as Mercury Vapor, High Pressure Sodium and Metal Halide.
- Lasts much longer than traditional yard lights, so it may be the last one you install.

Get the Facts

When comparing lighting products, look for the Lighting Facts label, which is required on most lighting packages by the U.S. Federal Trade Commission. The label provides accurate information on the brightness (in lumens), energy used, rated life, and estimated annual energy cost of each product.

RESIDENTIAL ENERGY STAR® LIGHTING

Rebate Application

Member Information:

Name _____ Account # _____

Address _____

City _____ State _____ ZIP _____ Phone _____

Member Type Homeowner Renter Landlord Builder Other

By signing this application, I certify that the bulbs for which I am claiming a rebate are qualifying ENERGY STAR or DLC rated products and are installed at the address listed above which represents a valid cooperative account.

Member Signature _____ Today's date _____

Bulb Information

Receipt and UPC provided

LED (\$2 per qualified bulb, limit 10) Quantity _____ Total Rebate \$ _____

LED Yard Light* (\$30 per fixture) Quantity _____ Total Rebate \$ _____

A copy of the sales receipt is required in order to have the rebate processed. Rebate will not exceed 50% of the actual cost of the bulb. Rebates must be submitted within 90 days of purchase, and will be applied as a credit to your account.

*Cooperative residential members are eligible for a \$30 rebate for the LED fixture only (not the bulb) installed in cooperative's service territory. Fixture must be ENERGY STAR or DLC rated. New LED installations or LED replacements for high pressure sodium, metal halide, or mercury vapor must be 50 – 100 watts.

Retailer Information

Retailer/Store Name _____ Location _____

Rebates are available for the purchase of new ENERGY STAR or DLC rated bulbs or fixtures. Rebate submittal must follow the guidelines as outlined by cooperative. Cooperative is not responsible for inaccurate information supplied by the bulb or fixture manufacturer. Rebates will be issued only for products on the current list of ENERGY STAR rated products as of the purchase date. ENERGY STAR occasionally removes products from qualifying lists, and cooperative will not rebate products that have been delisted as of the purchase date or are mislabeled as ENERGY STAR. To verify ENERGY STAR certification for appliances and lighting, visit www.energystar.gov or call 1-888-STAR-YES. Rebate program is subject to change or cancellation without notice. Call your cooperative to verify rebate program status and availability of rebates.

Important:

- The bulb(s) or fixture(s) must be installed within cooperative's service territory.
- Incomplete forms will not be processed.
- Include a copy of the original dated sales receipt.
- Submit completed rebate form and a copy of the original sales receipt within 90 days of purchase date to your cooperative.
