

Annual Report 2025

**LOCAL POWER.
COMMUNITY COMMITMENT.**

Serving the North Shore with
reliable energy and a commitment
to the communities we call home.

Your Touchstone Energy® Partner 

You Are **Invited**

As a member-owned cooperative, Cooperative Light & Power is governed by the people we serve. The Annual Meeting is an opportunity for members to hear updates, participate in the cooperative's democratic process, and connect with the employees and leadership who work every day to deliver local power and serve our communities.

Saturday, April 18, 2026

Two Harbors High School, 1640 Highway 2, Two Harbors, MN

■ Meeting Agenda

8:00 a.m. to 10:00 a.m.

- Registration is open for the CLP Annual Meeting
- Pancake breakfast served by the Two Harbors Lions Club

8:30 a.m. to 9:30 a.m.

- Entertainment by the Two Harbors Ukulele Group (THUGS)
- Bingo in the auditorium
- Electric Safety Presentations

10:00 a.m. Business Meeting

(Open gym is available for children.)

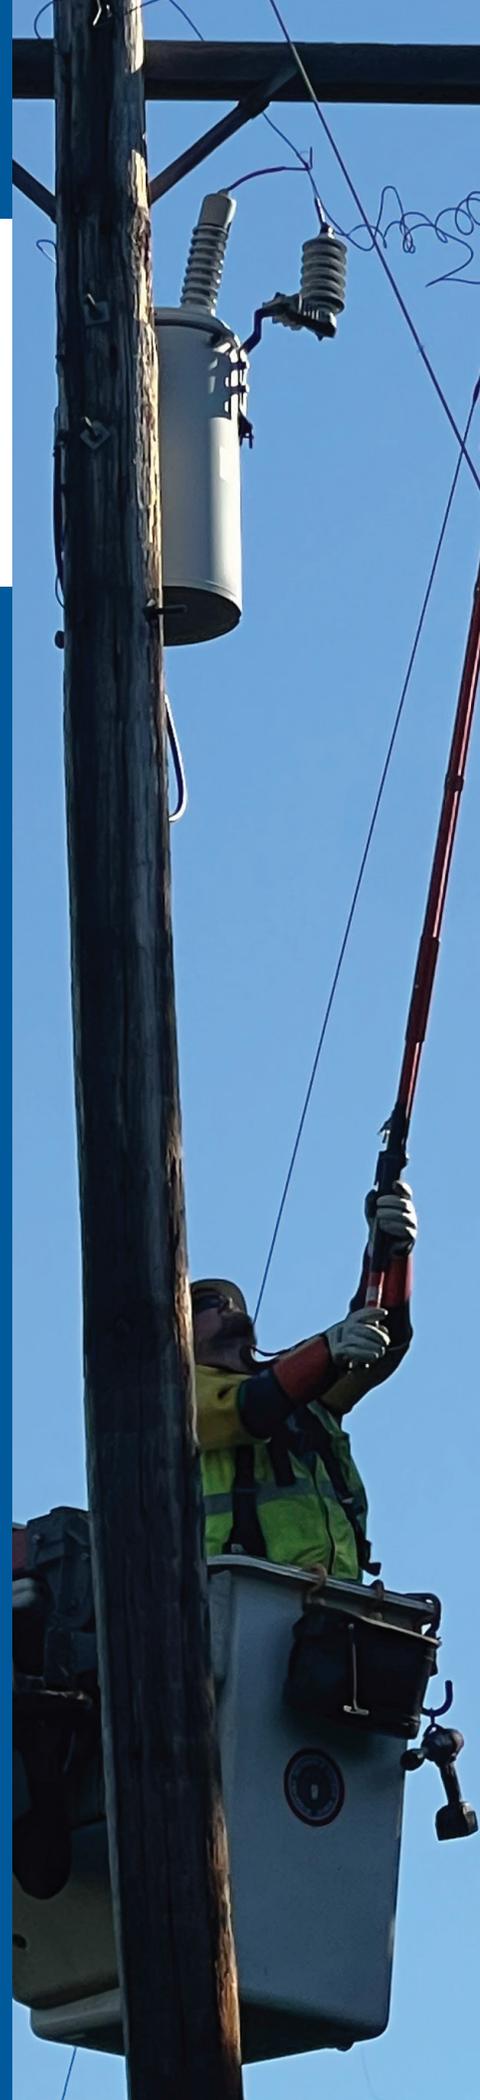

- Call to Order: Roger Peterson, President
- National Anthem
- Pledge of Allegiance
- Notice of Meeting: Jessica Willemarck, Secretary
- Approval of 2025 Annual Meeting Minutes
- District #1 Board Nominee Introduction
- Youth Tour Presentation from Aria Oswald-Swenson 2025 Delegate
- Guest Speakers from Great River Energy
- Financial Report: Roger Peterson, President
- CEO's Report: Carey Hogenson, CEO
- Responses to Member Questions
- Old Business
- New Business
- Business Meeting Adjournment

Please bring this report to the Annual Meeting. It includes important information used during the meeting, and the barcode on the back will help expediate registration. Refer to the back cover for details.

■ Review Last Year's Meeting Minutes

The minutes from the 2025 Annual Meeting are available online for members to review. Visit bit.ly/CLP2025MeetingMinutes or scan the QR to read the full minutes. Paper copies will be available at the Annual Meeting.

Board of Directors

Jessica Willemarck
Secretary, District 1

Justin Osadjan
Director, District 2

Kyle Weideman
Vice President, District 3

Steve Josephson
Treasurer, District 4

Roger Peterson
President, District 5

2026 DIRECTOR CANDIDATE: DISTRICT 1

Hello, my name is Jessica Willemarck. I grew up in Tower, Minnesota, where I also graduated from high school. I later attended Mesabi Range Community College and Bemidji State University, earning a degree in Applied Psychology. Following college, I worked in the mental health field in Virginia, Minnesota, for approximately 20 years.

In 2016, my husband Jesse and I moved to Brimson, Minnesota, and purchased Hugo's Bar. It is hard to believe it has been almost 10 years! We truly love this community and the people we have the opportunity to meet and work with every day! No two days are the same, and through our business, we have been fortunate to be involved in many community events, fundraisers, and local boards. We look forward to continuing to invest our time and energy in this wonderful area.

Since my election to the board, I have earned the Credentialed Cooperative Director (CCD) and Board Leadership Certificate (BLC) from the National Rural Electric Cooperative Association (NRECA), as well as the Key Director Certificate from the Minnesota Rural Electric Association (MREA). These courses have given me a deep insight into boardroom operations, the world of rural electric providers, and the cooperative business model. This also includes attending meetings with Great River Energy (GRE), learning the intricacies of how they generate power and transmit it across Minnesota.

I look forward to the opportunity to represent my fellow members of Cooperative Light & Power again for another term, and to continue advocating for our community's needs and interests.

In the District 1 election, incumbent Jessica Willemarck is running unopposed. As no other candidates have filed for this position, a voting process will not be necessary. Mrs. Willemarck will be officially declared elected during the Annual Meeting and will assume office in accordance with the cooperative's bylaws.

Employees

- **Carey Hogenson**, CEO
- **Brian Bentler**, Operations Manager
- **Shannon Haveri**, Finance Manager
- **Ken Jones**, Energy Services Manager
- **Megan Olmscheid**, Member Services/HR Manager
- **Kristin Bark**, Operations Coordinator
- **Brandi Berquist**, Capital Credits & Collections Rep
- **Rick Heath**, Lead Lineman
- **Kadie Higgs**, Member Services Representative
- **Tim Horgan**, Journeyman Lineman
- **Shannon Klinker**, Assistant Accountant
- **Chris Nyberg**, Warehouse/Mechanic/IT/OT Tech
- **Stephanie Palmer**, Forester/GIS Technician
- **Chase Peterson**, Construction Foreman
- **Blake Prince**, Energy Services/Master Electrician
- **Adam Riggle**, Member Services Rep/Payment Processor
- **Kevin Olson**, Design Engineer/Technology Specialist
- **Evan Sandretsky**, Journeyman Lineman
- **Jeff Toland**, Journeyman Lineman
- **Vince Udenberg**, Maintenance Foreman
- **Alexi Warnecke**, Billing Representative

Reflecting on 2025: Strength Through Change

Carey Hogenson, CEO

Dear Members,

When I look back at 2025, the words that come to mind are change, challenge, and growth. It was a year that tested our team in a number of ways, but it was also a year that reminded me just how strong this cooperative really is.

During the year, CLP experienced a leadership transition, and I had the privilege of serving as interim CEO before being appointed to the role permanently in September. Having been part of this cooperative for 30 years, stepping into that responsibility was both humbling and meaningful. I'm grateful to our Board of Directors for their trust, and even more grateful for the dedication of our employees who kept everything moving forward during a busy and demanding year.

One of the things I'm most proud of as I reflect on 2025 is the people who make up Cooperative Light & Power. Our employees are a hardworking, committed group who truly care about the members and communities we serve. Whether responding to outages, answering member questions, or working behind the scenes, they consistently go the extra mile. I hear the appreciation members express for our line crews and staff, and those messages mean a great deal to our entire team.

The year also brought some real challenges in the field. Two forest fires within our service territory, along with dry conditions and a major wind event, created difficult circumstances for our operations crews. Even during those moments, our focus remained on keeping members safe and restoring service as quickly as possible. That commitment to reliability continues to guide everything we do.

Reliability is the core of local power, and in 2025 we continued investing in the system that delivers electricity to our members. Our crews tested more than 1,100 poles, replaced aging equipment, installed 61 new services, and completed the first phase of an 18-mile line rebuild. We also hired a full-time forester and increased our right-of-way clearing efforts to help reduce tree-related outages. These investments may not always be visible, but they are essential to maintaining a reliable electric system.

Behind the scenes, the cooperative also completed a major technology upgrade with the conversion to our new NISC operating system and the launch of SmartHub. More than 2,600 members have already signed up for SmartHub, making it easier to manage accounts, receive information, and stay connected with the cooperative.

Financially, CLP remains strong and well positioned for the future. The cooperative recorded more than \$16 million in operating revenue in 2025 while maintaining a healthy equity position and returning \$250,000 in capital credits directly to members. As always, our goal is to manage the cooperative responsibly while balancing rising industry costs with affordability for our members.

Of course, our work goes beyond delivering electricity. Through Operation Round Up, CLP members helped distribute more than \$43,494 to local organizations this year. We also awarded six scholarships to local students, supported a Youth Tour delegate to Washington, D.C., and continued supporting schools and community organizations throughout our service area.

As we look ahead, our priorities remain clear: safety, reliability, and service to our members. With a strong board, dedicated employees, and engaged members, I'm confident that Cooperative Light & Power will continue to grow and serve our communities well.

Thank you for your continued support of your cooperative.

Sincerely,

Carey Hogenson
Chief Executive Officer
Cooperative Light & Power

Providing reliable electricity across a large and rural service territory requires careful planning, strong infrastructure, and a dedicated team. In 2025, Cooperative Light & Power continued to deliver dependable local power while investing in the system and services that support our members and communities.

Financials

Careful financial stewardship allows Cooperative Light & Power to maintain reliable service while investing in the infrastructure and technology needed to serve members today and in the future. As a member-owned cooperative, every dollar collected from members is managed with a focus on long-term stability, responsible investment, and returning value to the communities we serve.

In 2025, CLP recorded \$16.1 million in operating revenue while maintaining a strong equity ratio of 43.77 percent. Purchased power remained the cooperative's largest expense at \$8.53 million, reflecting the cost of delivering reliable electricity across the system. The cooperative finished the year with \$1.63 million in operating margins and returned \$250,000 in capital credits to members, with an additional \$72,423 returned through Great River Energy. These results demonstrate CLP's continued commitment to financial stability while investing in the electric system and serving members responsibly.

Where Your Dollar Goes

Purchased Power	55.12%
Operation & Maintenance	14.14%
Administration & General	12.66%
Depreciation	8.89%
Customer Service & Sales	4.11%
Interest & Taxes	2.99%
Customer Accounts	2.10%

For every dollar CLP collects, about 55 cents goes directly to wholesale power costs, the cost of purchasing the electricity delivered to your home or business.

Liabilities & Margins

- 44% Long Term Debt
- 44% Equities & Margins
- 12% Current Liabilities & Deferred Credits

Member-Owned. Financially Strong.
CLP's financial strength supports ongoing system investments, reliable service, and the return of capital credits to our members.

Operations

Delivering reliable local power across Cooperative Light & Power's service territory requires year-round work maintaining infrastructure, managing vegetation, and investing in system improvements. In 2025, our operations team continued strengthening the electric system through construction projects, preventative maintenance, and safety initiatives. Despite challenges from forest fires and severe weather early in the construction season, crews remained focused on reliability while completing major projects, inspecting system equipment, and preparing the grid to serve members well into the future.

SYSTEM CONSTRUCTION AND IMPROVEMENTS

- Cooperative Light & Power invested \$2,764,353 in construction projects to strengthen and maintain the electric system. After accounting for aid to construction, net construction and improvement expenses totaled \$2,397,731.
- Crews rebuilt 3.9 miles of overhead line, converting aging two-phase line to three-phase to improve system capacity and reliability. An additional 1.1 miles of aging underground cable was replaced to modernize the system.
- The first phase of a planned 18-mile line rebuild project was completed during the year.
- Crews installed 61 new electric services, including several new services for a new resort development; completed 97-member system improvement projects involving service alterations and upgrades.

SYSTEM MAINTENANCE AND INSPECTIONS

- Cooperative Light & Power completed 193 work orders related to system design, staking, and inspection.
- Crews tested 1,169 utility poles as part of the cooperative's ongoing maintenance program. As a result, 11 poles were identified for replacement and subsequently replaced to maintain reliability.
- 523 underground enclosures were inspected to ensure safe operation.
- A total of 53 transformers were replaced across the system during the year.
- Substation work included the replacement of one regulator and the servicing of 24 vacuum switches, supporting ongoing system reliability and performance.

VEGETATION MANAGEMENT

- Cooperative Light & Power hired a full-time forester to strengthen long-term vegetation management efforts and wildfire mitigation planning.
- Crews completed 312 vegetation management service orders throughout the year.
- A total of 12.7 miles of right-of-way were brushed to maintain safe clearances around power lines.

SAFETY AND TRAINING

- The cooperative celebrated its 10th consecutive year injury-free, representing 376,052 safe working hours.
- Staff conducted 19 crew observations, 10 facility inspections, and 5 vehicle and equipment inspections.
- The safety committee convened six times and facilitated 16 safety service days and meetings over the course of the year to support a strong culture of safety.
- Written safety plans were reviewed and a noise exposure assessment was completed.
- The cooperative also conducted two emergency restoration tabletop exercises to strengthen response planning.

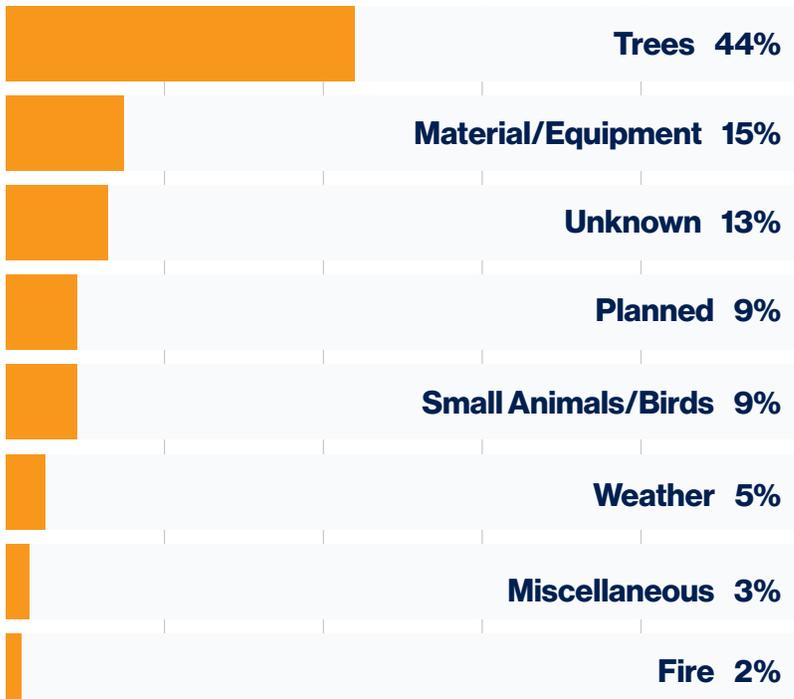

EQUIPMENT AND TECHNOLOGY

- After more than three years of waiting, the cooperative received a new bucket truck to support field operations. A new pickup truck was also added to the fleet to assist with daily operations.
- The cooperative completed a major conversion to the NISC operating system, improving internal systems and processes.
- New software tools were implemented to support forestry management and vegetation planning.

OPERATIONAL CHALLENGES

- The construction season began with two forest fires and a major wind event, delaying projects by more than two weeks.
- Crews navigated federal permitting requirements for line rebuild projects, which can add complexity and time to infrastructure work.
- Several large construction projects arrived late in the season and had to be completed before winter conditions set in.

Outage Causes

Trees remain the leading cause of outages across the system, making vegetation management a key reliability priority.

Wholesale Power Supply

Delivering reliable local power requires strong regional partnerships. Cooperative Light & Power purchases wholesale electricity from Great River Energy, a generation and transmission cooperative owned by its member distribution cooperatives. Through this partnership, CLP members benefit from a diverse energy portfolio, long-term planning, and collaborative solutions that help keep electricity reliable and affordable.

2025 HIGHLIGHTS

- Cooperative Light & Power purchases wholesale electricity from Great River Energy, its member-owned generation and transmission cooperative.
- This partnership allows CLP to access a diverse mix of energy resources, including renewable generation, market energy, and traditional baseload power.
- Regional power partnerships help maintain grid reliability during periods of extreme weather and high electricity demand.
- Cooperative collaboration allows utilities like CLP to share resources, coordinate planning, and respond quickly to industry changes.
- Great River Energy continues investing in transmission infrastructure and generation resources to support long-term reliability across the region.
- Working together helps ensure members receive dependable energy while navigating rising industry costs and changing energy policies.

Energy Programs & Member Service

Helping members manage energy use while providing responsive service and clear communication is central to Cooperative Light & Power's commitment to the communities we serve. Through load management programs, energy efficiency rebates, renewable energy interconnections, and convenient account tools, CLP helps members control energy costs and stay informed about their electricity use.

ENERGY MANAGEMENT PROGRAMS

- Cooperative Light & Power's load management programs currently include 1,486 enrolled systems, representing 14,498.4 kW of controlled load and contributing to reduced peak demand and lower wholesale power costs.
- Members installed 12 new energy management systems during the year. New enrollments included 10 dual-fuel unlimited systems, one off-peak heating system, and one off-peak EV charging program.

ENERGY EFFICIENCY AND REBATES

- Cooperative Light & Power issued 161 energy efficiency rebates totaling \$70,580.91 to members in 2025.
- Members installed 51 heat pump systems, including heat pump water heaters, ground-source heat pumps, ducted systems, and ductless mini-splits.
- Energy efficiency rebates help members invest in modern equipment that lowers energy use and improves comfort.

RENEWABLE ENERGY

- Cooperative Light & Power currently has 137 renewable energy systems interconnected to the grid, including 131 solar installations and six wind systems.
- These systems represent 1,496.04 kW of distributed renewable energy capacity across the service territory.
- Members installed 22 new renewable energy systems in 2025, bringing the total number of interconnected renewable systems on the CLP grid to 137, including 131 solar and 6 wind installations.
- CLP works with members to help navigate technical and regulatory requirements for renewable energy installations.
- The cooperative uses tools such as the NOVA App to simplify the interconnection process for members and installers.
- Staff assist members with questions about installation, interconnection, and system performance.

MEMBER SERVICES, BILLING & COMMUNICATION

- A total of 2,613 members registered for SmartHub, providing convenient access to billing, energy use information, and cooperative communications.
- 2,533 members now use AutoPay, allowing them to make secure and automatic monthly payments.
- 1,187 members have enrolled in paperless billing, reducing paper use and providing faster access to billing information.
- Cooperative Light & Power updated its billing statement design to improve clarity and make account information easier for members to understand.
- The cooperative's Facebook page continues to be an important communication tool, with approximately 2,000 followers and more than 18,000 visits in 2025.
- Staff continued working directly with members to answer questions, provide account support, and communicate important updates throughout the year.

In 2025, the Member Services team completed the cooperative's transition to the new NISC operating system and launched SmartHub, giving members easier access to billing information, energy use data, and cooperative updates. Staff also completed safety upgrades at the CLP headquarters building and a RESAP (Safety Inspection) review while continuing to deliver dependable service throughout the year.

Community

Being a cooperative means putting community first. Cooperative Light & Power supports local organizations, students, and families through scholarships, Operation Round Up, volunteer efforts, and community programs that strengthen the places we live and work.

2025 HIGHLIGHTS

- Cooperative Light & Power awarded six scholarships totaling \$6,000 to local students in 2025.
- Aria Oswald-Swenson (pictured below) represented the cooperative as CLP's Youth Tour delegate, traveling to Washington, D.C. to learn about leadership, government, and the cooperative model.
- CLP employees contributed approximately 500 volunteer hours supporting community organizations and local events.
- The cooperative conducted two electrical safety presentations to help educate students and community members about electric safety.
- Staff participated in 10 community events throughout the year, strengthening connections with members and local organizations.

WESTHOLM SCHOLARSHIP RECIPIENTS

- Two Harbors High School: (Ava Oswald-Swenson, Isabelle Mecklin, Alison Shaw)
- William Kelley High School: (Sarah Maxwell)
- Neighboring Communities: East High School (Kylie Zwak) & Marshall School (Kade Siegle)

Aria Oswald-Swenson

Operation Round Up

Operation Round Up allows Cooperative Light & Power members to voluntarily round up their electric bill to the next dollar each month. The small change adds up and is distributed as grants to local organizations that support community needs across the cooperative's service area.

- Operation Round Up distributed \$43,494 to local organizations.
- Twenty eight organizations received funding through the program.
- Approximately 50 % of CLP members participate in Operation Round Up.
- Since March of 2005, more than \$600,208 has been distributed to community organizations.

COOPERATIVE LIGHT & POWER ANNUAL MEETING

Notice of Annual Meeting of Members of Cooperative Light & Power

The Annual Meeting of Members of the above Cooperative will be held at Two Harbors High School, 1640 County Highway 2, Two Harbors, Minnesota, at 10:00 a.m. on the 18th day of April 2026, to take action upon the following matters:

- Registration from 8:00 a.m. to 10:00 a.m.
- Business meeting beginning at 10:00 a.m.
- Report of Officers, Directors & CEO
- Election of District #1 Director
- All other business which may come before the adjournment of the meeting

WHAT'S ON THE MENU?

The Two Harbors Lions Club will be serving a pancake breakfast including coffee and beverages for our members to enjoy prior to the start of the Annual Meeting.

ENTERTAINMENT & ACTIVITIES

Start your morning with live music from the Two Harbors Ukulele Group (THUGS) from 8:30 to 9:30 a.m., plus bingo in the auditorium. Kids can also enjoy open gym time, offering fun and activity for all ages during the Annual Meeting.

REGISTRATION GIFTS & DOOR PRIZES!

Members in attendance will receive a \$15 bill credit and a CLP tote bag at registration, along with opportunities to win additional door prizes throughout the meeting.
