or scan the QR code to schedule
time to speak with an Advisor.

Brought to you by Zero Homes in partnership with Cooperative Light & Power and Great River Energy.

SWITCH FROM GAS TO HIGH-EFFICIENCY ELECTRIC SYSTEMS

Zero Homes offers **fully remote quotes** for high-efficiency electric appliances. This includes heat pumps that can replace your gas furnace and AC with one electric system.

Heat pumps provide both heating and cooling for year-round comfort and can lower energy costs.

WHY CHOOSE ZERO HOMES

- Fully Remote: A quote without anyone coming to your home
- High-Efficiency Solutions: Modern heat pumps work even in Minnesota winters
- Reduce Fossil Fuel Usage: Lower your carbon footprint
- Affordable Financing & Rebates: Zero Homes maximizes local and federal incentives

*Members who currently use propane or electric baseboards as their primary heating source will see the most significant savings
